PART 1 of 3

The story so far...

In countries of both first and third world power, The Hit List Agenda has begun to spread its roots in new and mysterious ways, with the presence of executive assistants Orchid and Lotus, in Colombia and India, respectively. Yet the scope of unfolding events, still unclear to all but those pulling the strings, remains expansive...

London, England. It is not a city usually associated with crime, corruption, or assassinations. However, in the largest metropolitan city in the United Kingdom, power is still the only true, recognizable currency. And those who plot for such control will not let anything—or anyone—stand in the way of acquiring it.

I THOUGHT HIS DEATH WAS RULED A HEART ATTACK.
